## Foreword

For reasons of health it has become necessary to dispose of my entire herd of Short-horn cattle. This herd was founded in 1895 by my father, the late Mr. J. G. Washington, and is the oldest continuously established Shorthorn Herd in Manitoba today.

A study of the catalogue will disclose the fact that the animals in this herd are descended from the most fashionable blood lines in the breed. A visit to the farm will prove that the cattle conform to the type most in demand by present day breeders.

The sale will feature the get of the following well known bulls:

**GLENBURN DECORATION -233885-** for two years Junior Champion on the "A" circuit.

**KILLEARN REVALANTA -244269-** Grand Champion at Manitoba Provincial Exhibition and other leading Manitoba Shows in 1942 and 1943.

**KILLEARN MONARCH - 124th -295906-** Reserve Senior Champion at Brandon, 1949.

**KILLEARN RED MAX -295338-** Junior Champion at Brandon, 1948.

**KILLEARN CONQUEST 24th -303166.**

The herd is fully accredited for T.B. and calfhood vaccination with Strain 19 has been practised for six years. The past two years we have had a 100% calf crop. All animals will be blood tested for Bang's Disease prior to the sale, with the exception of young vaccinated Heifers and Bulls.

I have enjoyed working with my fellow breeders, both individually and collectively. I deeply regret that my health makes it necessary to disperse the herd. However, this dispersal will offer breeders an opportunity of purchasing choicely bred animals in pasture condition.

**H. F. WASHINGTON.**
